SUMMARY

A Full Stack UX Researcher & Designer, with the ability to blend technical proficiency with artistic flair to forge engaging and functional user experiences.

Possesses a comprehensive skill set, encompassing in-depth user research, vibrant visual design, and strategic product management, dedicated to delivering innovative UX/UI design solutions that elevate user satisfaction and drive business success.

EXPERIENCE

UX/UI Designer | **Weedor**   Feb 2023 - Present

- **Research Phase:** Weedor, Inc. empowers African schools to create inclusive, innovative learning environments, quality education for all. My research involved analyzing the user interface, user experience, and overall functionality of their current website.

- **Branding Elements:** Creating consistent and cohesive branding elements, including logos, color palettes, and visual assets.

- **Website Redesign:** Redesigning the company's website to improve user-friendliness, visual appeal, and alignment with the latest design trends.

UI Designer   **Initialyze**   May 2022 - Aug 2022

- **Website Product Page Design:** I provided design ideas for the website's product page, offering multiple solutions and innovative ideas to enhance its design.

- **Social Media Brochures**: I also designed brochures for social media, ensuring they were engaging, on-brand, and effectively communicated the company's message.

Graphics Designer   **Learnovate Ecommerce**   July 2021 - Oct 2021

- **Layouts and Production Designs:** I designed layouts and production designs for various applications, including advertisements, brochures, magazines, ID cards, and reports.
